Jan 2025 Placement Test

Frank T

4th Grade

GRADE & DOMAIN	RESULTS	EXPAND
Grade 3: Fractions	✓ 4/4 Correct	▼
Grade 3: Data Analysis and Probability	✓ 4/4 Correct	▼
Grade 4: Algebraic Reasoning	✓ 4/4 Correct	▼
Grade 4: Number Sense and Operations	⚠ 2/5 Correct	▼
Grade 4: Measurement	⚠ 1/3 Correct	▼

Potential Uses

- Form small groups before teaching each domain
- Target students in red for intervention
- Enrich students above grade level
- Compare beginning of the year to middle of the year
- View the exact questions students missed on the placement test

Assignment Report

You can view student data for the skills you assign. This is a great way to gather data on the content you're currently teaching!

Data Insights

- Student progress
- Student score
- Class accuracy
- Student responses
- Students who need help
- Questions the class struggled with
- Skills to reteach

Potential Uses

- Check understanding of current standards
- Formative assessment grades
- Whole class review with Quick Quiz
- Reteach struggling students
- Form intervention groups based on insights
- Go over missed questions
- Reteach skills that need strengthening
- Tier I, II and III data points

Potential Uses

- Show parents an overview of math progress during parent teacher conferences
- Use the data to write IEP reports
- Determine a goal or focus area based on accuracy
- Catch rushing trends based on time spent

Curriculum Progress

Data Insights

- Percentage of students who have mastered a strand
- Strands with struggling students
- Standard view and skill breakdown
- Class groups by skill
- Identify strong and weak understanding across your curriculum standards

Potential Uses

- Group students based on the report
- Assign practice on Prodigy for struggling students
- Reteach weak areas before state testing
- Identify skills for spiral review
- Change grade level view to see prerequisite gaps and enrichment levels
